
To whom it may concern

I am another person that have been isolated from my children. Now with out breaching laws in Australia I will give an over view and if you get in touch then we may proceed with more info. But at the moment [REDACTED]

[REDACTED] now I proved this and the judge is now trying to hide it . As the other party in my case is up for charges the so called fair system is anything but Fair. And the cowardly judges can't except forward movement and will do anything to make it look like they were right. And step on my and children's rights. Im trying to do this 21st century attitude but so Hurt

Regards
