

Submission 34

I was abused and sexually harassed [REDACTED] as I worked [REDACTED] in [REDACTED] Dept of Education. I was physically injured as a result of the sexual harassment. The school [REDACTED] then covered this up and continued bullying and harassed me and tried to sack me. These staff knew I was a victim of domestic violence.

These staff did not support me after I was injured at work. I have not worked in 2018. I cannot drive still. I am 13 weeks post surgery and the Department have advised that they will not be returning me to any light duties. My services are no longer required.

I am a sole parent who no longer has a job because I reported sexual harassment and was injured at work.

Please feel free to contact me for more information.
