

Submission 50

I worked at [REDACTED], it was my second job when I was 16-17. I don't remember when it started but one of the managers would refer to me as his 'wife'. He would have been in his 30's and he had an actual wife. He would call me his 'wife' in front of customers as well. Then it progressed to him slapping my ass and telling me that I looked good. This all happened within the store. He also did this to one of my friends that was a similar age. We approached a different manager about it and it stopped for a while. But then he would treat us differently and acted as if we had done the wrong thing by telling someone. It was never mentioned again. I still have the manager on Facebook as well and last week he wished me a happy birthday, I didn't respond.
